FREE ONLINE Courses and Training

Alison Online Training Courses, allow you to develop your skills and knowledge by studying interactive self-paced training and certificate courses, online for free.

The following courses and training programs are all accessible to you at anytime.
Study in the Online Virtual Classroom at your own pace.

You can study online in your own time, choosing any combination of courses that you would like to take.

You can even choose to study courses that are not directly related to your website and online business, for example courses in English. Suitable for anyone that needs to improve their English language skills.

Once you have registered for online training - your place within the courses that you have chosen to take, will be recorded. That way you can stop and start courses whenever you like without having to remember which modules you had completed.

Are these courses a requirement of running your online business?

No they are certainly not compulsory. But if you are interested in further developing your business and learning technical skills that you can apply to your business as well as your everyday life - they will be of benefit to you.

Some courses are Certificate and Diploma Level training, all available for FREE.

There are over 95 different Business Training Courses

Over 100 Digital Literacy & IT Training Courses

Software Desktop Application Courses such as Word, Excel & More

As well as hundreds of other courses covering a wide range of subjects.
