

# HOME BUSINESS WEBSITES PTY LTD

## SUPPLIER DIRECTORIES AND RESOURCES

### SUPPLIER DIRECTORIES

The following supplier networks are an invaluable tool for sourcing both Australian and Worldwide Wholesale and Drop Shipping Suppliers.

The supplier networks contain details for thousands of additional suppliers and access to millions of additional products.

The best thing about using these online supplier networks is that they are updated regularly to include new suppliers as they become available, and also to remove old supplier contacts.

Accessing these supplier resources and online databases will ensure that you have up-to-date information and lifetime access to the growing number of worldwide Wholesale and Drop Shipping Suppliers.

These directories are an invaluable resource for finding and sourcing new suppliers and products, as they become available.

Please note that Home Business Websites does not maintain all of these individual supplier networks. They are available to be used by Wholesale and Drop Shipping companies worldwide. You may therefore find listings from some suppliers 'charging an annual fee' to use their drop shipping services. These suppliers should be avoided. We recommend only using those suppliers providing free drop shipping services.

### Australian

Australian Craft Network
