## LEGAL DISCLAIMER

Information contained in this document is correct at the time of publishing.

Please note that affiliate / reward programs do change, as do suppliers terms and conditions, usage terms and affiliate payment amounts etc.

For current and correct information, as well as up to date usage terms and conditions you should always check individual supplier's websites.

Please note that Suppliers are a 'Free package inclusion' when you purchase a website from Home Business Websites. This is not a paid service that you pay extra for, nor is it something that can be purchased separately. Suppliers lists are not for individual sale and are only made available to our customers.

Supplier's information is copyright to Home Business Websites and as such, should not be shared, copied or re-distributed in any format.

Access to Wholesale Suppliers, Drop Shipping Suppliers and Suppliers Networks are provided to our customers as a free service. You do not pay anything to use or access any of our supplier's services or supplier networks. Please check supplier websites for image and reseller usage terms and conditions and/or contact suppliers directly.

## FINDING SPECIFIC PRODUCTS ON SUPPLIER WEBSITES

Suppliers only list a limited number of top level categories on their websites. This however, doesn't necessarily mean they don't stock the certain products you want to sell.

A tip to finding specific products on a supplier's website is to use the 'Search' feature. By entering a key word, the website will find and list all products with that word in its heading.

As an example, if a supplier doesn't have a category for baby products you could do a search for 'baby' or if you're wanting to sell art, search for 'art' or 'painting'.

## **DROP SHIPPING**

### **SUPPLIERS & PROCEDURES**

Congratulations on your decision to start your own Home Business Website! We wish you every success with your new Website and Home Business venture. So let's get down to business.

Our Home Business Website packages include three different types of suppliers; Manufacturers, Wholesalers, and Drop Shipping Suppliers.

Manufacturers - you order from them in bulk, usually in lots of 100 or more. They can also design and manufacture goods based on your requirements.

Wholesale Suppliers - you order from them in bulk, usually in lots of 5-6 items and keep all of your own stock.

Drop Shipping Suppliers - you order from them only after you have received an order and payment from your own customer. They provide a Free Drop Shipping service to you. Using Drop Shipping suppliers allows you to 'sell now and pay later' without having to keep any of your own stock.

You will now already be familiar with the term Drop Shipping and exactly what this entails, however if you need a quick refresher or further details, please read below.

### **WHAT IS DROP SHIPPING?**

Drop Shipping is the fastest, lowest cost and easiest way for anyone to earn an income from home, using just a computer and internet connection. You can sell an unlimited number of products without having to buy any inventory. Drop Shipping means that you are selling a supplier's products but that they are responsible for packaging and sending goods directly to your customer.

In short, you will be taking orders and payments for items that you sell from your website, and forwarding these orders on to the Drop Shippers. The Drop Shippers will then ship the items directly to your customers. You pay the Drop Shipper their price while charging your customers a marked up retail price (as set by you).

You then get to pocket the difference between the price you charge your customers and the price you pay the Drop Shipping suppliers. It's that simple. You market the supplier's products and make money on each and every sale.

*Why would customers choose to buy from you?* Research shows that people today are all super busy, they want something when they want it and don't want to waste any time in getting it. If they want books, they search online and will usually purchase from a dedicated online book store! They don't want to go searching all over the place looking for a particular title when they can head directly to their favourite online (or dedicated) book shop.

The same goes for baby goods, when people want these products, 85% of them will head directly to a dedicated online baby store, because they prefer to buy from a specialty outlet selling only the goods they require. They feel safer buying from a specialist store.

The choice and range of products available from dedicated /specialty stores is always going to be greater, with a lot more product variety to choose from. *You also have the added advantage of being able to offer goods, from multiple and combined suppliers from Australia and Worldwide!* The stock you can offer for sale on your website will always be much greater than that sold by individual suppliers who are keeping all of their own stock.

Customer Service is another very important factor. If you provide good customer service to your customers - they will come back to your store again and again. Offering great customer service is one of the most important factors to online shoppers. Offering a 'personalised' and 'feel-good' shopping experience and making your customers feel important counts for a lot these days, particularly with so many online service providers providing "zero" customer service and "zero" customer satisfaction.

*Keep in mind that you are in NO WAY limited to selling only our recommended suppliers products – in fact we encourage you to find some of your own as well. You can sell whatever you like from your own website!*

*Once you have your store “up & running” you may like to expand and offer other unique or niche market products. You can use the 'product sourcing tools' and the 'supplier's networks and databases' included in this package to find additional niche market products and suppliers.*

*You can simply sell these alongside the Drop Shipper's products – giving you an even larger product selection and range of products.*

*You could for example choose to stock a small and selective range of Handmade or Organic Baby Products, Baby Gift Baskets, Personalised Kids Products or Baby Hampers – these are just some suggestions.*

*You can inquire with any suppliers that you find to see if they are willing to provide a Drop Shipping service for you.*

*If you will be using Wholesale Suppliers and 'stocking' Wholesale products yourself – you may then like to consider offering additional services such as a free gift wrapping! There are so many different ways that you can look at to further expand your store and product range.*

The best news is that ... “the growing trend is towards..... buying & shopping online”.  
Once again people are just too busy in their day to day lives, and the growing trend is to *Shop Online!*

**Did you know that;** -online retail sales and profits for Australian eCommerce reached more than \$37 billion in 2013!

- Worldwide online retail sales will exceed 1.5 trillion dollars in 2014!

- Looking at the predicted growth of eCommerce in Australia, by the year 2016 online spending is expected to increase by around \$27 billion dollars.

**Did you know that;-** Many of the biggest power sellers on eBay, those that are making over \$20,000 per month in sales (that's right 20K per month in sales) are resellers all using Drop Shipping Suppliers!

#### USE OF PHOTOS & DESCRIPTIONS – DROP SHIPPING

For current and correct information, please check with individual supplier's websites for image and reseller usage terms and conditions and/or contact suppliers directly.

#### DROP SHIPPING ORDER PROCEDURES

We are using crazysales.com.au to show you the procedures for ordering. Most of the Drop Shipping suppliers have exactly the same or similar processes for resellers.

In short: You simply sign up for an account and use this whenever you place an order online. You use your customer's details in the “Ship To” address fields. This ensures that goods are delivered directly to your customer.

NOTE: If drop shipping suppliers websites do not have separate fields for shipping and billing information - you should use the customer's name & address details and your own email address and contact phone number.

**\*\* Always use your own email address \*\*** as this ensures that all invoices will be sent to you

### BLIND DROP SHIPPING

All emails, invoices, delivery notifications and other communications are sent directly to you. You will need to place a separate order using *your* account, for each order that you receive via your website and for each address that you wish to ship to. *You need to ensure that you change the "ship to" address field for each order (the ship to address is the customer's address)*

You direct the Drop Shippers to ship the goods directly to your customer – whose details you must enter in the "ship to address".

All your customer receives is the parcel with the item they have ordered inside. They do not receive paperwork such as pricing or invoices from the Drop Shipping suppliers - these are sent directly to you. You need to supply a "ship to" (your customer's) mailing address at the time of placing the order.

*Important:* The "ship to" address is not able to be changed once the order has been placed.

### SHIPPING – DROP SHIPPING

You will need to copy the item's shipping price to your own website - for each product that you setup.

Most suppliers use a fixed/standard shipping price that can easily be seen displayed along side their products. You simply copy this shipping cost directly onto your own website when you setup the product.

Other suppliers use a shipping calculator to determine shipping costs.

It should be noted that you will never be able to copy 'calculated' shipping prices exactly - as suppliers use different calculators. You can use the suppliers shipping calculators that they have on their websites to help you determine an average/estimate shipping cost.

For example if you are in NSW and use WA to calculate shipping costs (using the supplier's online shipping calculator) this will give you the maximum price customers would pay for delivery.

You will get to know shipping charges quite well after you have been selling for a while and will eventually be able to estimate quite accurately 'calculated' shipping charges.

It is up to you if you choose to charge your buyers the same shipping costs as the suppliers - or if you choose to bump up the price to increase your profit margin.

*Please refer to your Website Package Instructions for full details of adding new products to your website*

### PAYMENT – SUPPLIERS

Most suppliers accept payment by PayPal and Credit Card, some also offer payment by direct bank deposit.

We recommend using PayPal wherever possible as it is the safest way to make payments online.

Other methods of payment are also readily accepted; please check supplier's websites for details.

It costs you nothing to use PayPal to make a payment - it is 100% FREE to send money.

You will need a PayPal account anyway to accept payments from your own Website customers.

Please refer to your Website Package Instructions for further details on PayPal.

## PROCEDURES TO FOLLOW WHEN LISTING STOCK ON YOUR WEBSITE – DROP SHIPPING

The suppliers cannot guarantee how long any of their items will be available for. For this reason we recommend that you check their websites regularly for product availability and new product listings.

When there are only 10 or less available of any particular item, you will notice an "Almost Sold Out" icon that appears on many of the supplier's websites (Note: not all suppliers provide this information).

Once you have listed stock for sale on your website, remember to check the supplier's websites for stock availability – regularly.

The best way to do this is to use the same or similar categories as the Drop Shippers and to basically compare what you have listed on your website; with what is available on their website (you could also do a search for particular items if you find this easier).

If you see that an item is almost sold out or is down to just a few remaining items – it's time to remove it from your website and add something else in its place.

You don't want to be selling goods on your website that are no longer available (or are out of stock) from the Drop Shippers.

*TIP: If you are using multiple Drop Shipping suppliers you may like to use the "SKU or UPC" fields in admin when setting up the product. You could use a code system to identify which products were from which supplier.*

*e.g.; Products Model F100 for Factory Fast, CS100 for crazysales.com.au, and so on.  
You can come up with your own code system.*

## SELLING ON EBAY – DROP SHIPPING

If you are going to list items for sale on eBay or on other online auction sites we recommend listing 3 day auctions only.

As mentioned Drop Shippers can sell out of stock quickly, listing for 5 days will ensure that your items listed will still be available at the end of the auction. Remember to check stock availability before listing them again.

## FURTHER DISCOUNTS AND REWARDS – DROP SHIPPING

When you purchase from Manufacturers or Wholesale suppliers you will generally receive items at discounted prices, as you are purchasing in 'bulk'. The more you purchase the bigger the discount will be.

You will find that almost all Drop Shipping suppliers are liquidators or importers offering products well below manufacturers recommended retail prices. Many Drop Shipping suppliers will include the MRRP on their websites, which will be the price that is crossed out / has a line through it. The Manufacturers Recommended Retail Price (MMRP) is the price that manufacturers recommend selling the product for.

Many Drop Shipping suppliers also offer additional Reseller Discounts, VIP Programs and Rewards Schemes. You can sign up for these on the Drop Shipping supplier's websites.

The reseller discounts vary from supplier to supplier, so please make sure you check their websites (and join their reseller programs) to take advantage of these great rewards and discounts. \* Not all Drop Shipping suppliers provide reseller discounts, as their prices are already far below Manufacturers Recommended Retail Prices. They do however all provide free Drop Shipping services to you.

Below are just some examples of Drop Shipping suppliers offering reseller discounts and VIP programs.

[www.tinydeal.com/tinydeal-dropship-program-si-4433.html](http://www.tinydeal.com/tinydeal-dropship-program-si-4433.html)

Offer reseller discounts based on sales

[www.tmart.com/drop-shipping.html](http://www.tmart.com/drop-shipping.html)

Offer reseller discounts of up to 10%

[www.dinodirect.com](http://www.dinodirect.com)

Offer VIP program and prices

[www.banggood.com/Drop-ship-With-Banggood\\_hl18](http://www.banggood.com/Drop-ship-With-Banggood_hl18)

Offer Reseller discounts

[www.reptapets.com.au/cms/page/Wholesale-Dropship](http://www.reptapets.com.au/cms/page/Wholesale-Dropship)

Offer reseller discounts

Please note; that we do not include details for all reseller programs here, as the programs do change regularly and it's not always possible to keep this information up-to-date.

You can visit the Drop Shipping supplier's websites above to view further details of their reseller prices and VIP programs.

**Further Information:**

Many online retailers use Drop Shipping suppliers to source their products, as do all of the biggest power sellers on Ebay, they are all using Drop Shipping suppliers.

Using Drop Shipping suppliers is a very successful business model. It is not only cost effective but it also has no overheads and requires no outlay or upfront costs for any stock.

Using Drop Shipping suppliers allows businesses to offer a huge selection of goods that they would otherwise not be able to keep themselves (at home).

Having access to so many different Drop Shipping suppliers, Wholesalers and products, means that you can offer products 'far and beyond' what other online retailers are offering.

You can also specialise in one niche or many different product categories, using many different sources for your products.

Did you know that it is actually not just prices that make a retail store successful?

If you take for example Fishpond [www.fishpond.com.au](http://www.fishpond.com.au). They are one of, if not "the" most successful online retailers in Australia. They are also one of the largest online stores in Australia.

Their business model uses only Drop Shipping suppliers and they sell most of their products at 50-80% higher prices than other online retailers.

This does not stop them making a profit at all, in fact they post profits of millions of dollars each year, and are as mentioned one of the most successful online retail stores in Australia.

See over for just a couple of their price comparisons;

## Crazy Sales

### Kids Toy Supermarket Set - \$39.97

The screenshot shows the Crazy Sales website interface. At the top, there's a navigation bar with links like 'Hello, Sign In or Register', 'My Pending orders', 'My Account', 'Help', and 'View Cart'. A search bar is prominently displayed with the text 'Search 10000+ products on sales, search now!'. Below the navigation bar, there's a banner for 'CRAZY DISCOUNT!' with a timer showing '4 days 11:45:36' and a 'BUY NOW' button. The main product area features the 'Kids Toy Supermarket Set' with a large image of the playset and a smaller image of a child playing. To the right of the image, the product details are listed: SKU: k008-85, Overall Rating: 5 out of 5, and a 'Crazy Price' of \$39.97. There are buttons for 'ADD TO CART' and 'ADD TO WISHLIST'. Below the price, it says 'Buy Now to Earn 39.97 CrazyPoints! 100 CrazyPoints Equals to \$1'. At the bottom, there's a section for 'Enter postcode to recalculate' with a field for 'Your Postcode: 2000' and a 'Go' button. Shipping information is also provided: 'Shipping Carrier: eParcel' and 'ETA: 1 - 4 working days'.

## Fishpond

### Kids Supermarket Super Fun Playset - \$157.00

The screenshot shows the Fishpond website interface. At the top, there's a navigation bar with the Fishpond logo and the tagline 'Now Australia's Biggest Toy Store'. A search bar is present with the text 'Search Toys'. Below the navigation bar, there's a banner for 'MEDca Kids Supermarket Super Fun Playset' with a large image of the playset and a smaller image of a child playing. To the right of the image, the product details are listed: 'MEDca Kids Supermarket Super Fun Playset' by MEDca, priced at \$157. There are buttons for 'Add To Cart' and 'Add To Wishlist'. Below the price, it says 'Free shipping Australia wide' and 'Ships from USA supplier'. At the bottom, there's a section for 'Product Description' which describes the playset as a durable design with lights and sounds, easy to assemble, and featuring various fruits, vegetables, and groceries. Shipping information is also provided: 'Shipping Carrier: eParcel' and 'ETA: 1 - 4 working days'.

***This is exactly the same product, however Fishpond sell it for over \$117.00 more!***

If you were offering this product in your store, you could offer it for much (much) less than what Fishpond are selling it for!

As mentioned Fishpond are one of, if not the biggest online sellers in Australia, making millions of dollars in profits every year. They are selling many of their products at way above Manufacturers Recommend Retail Prices (MRRP) and yet this does not stop them making huge profits.

Here is one more example;

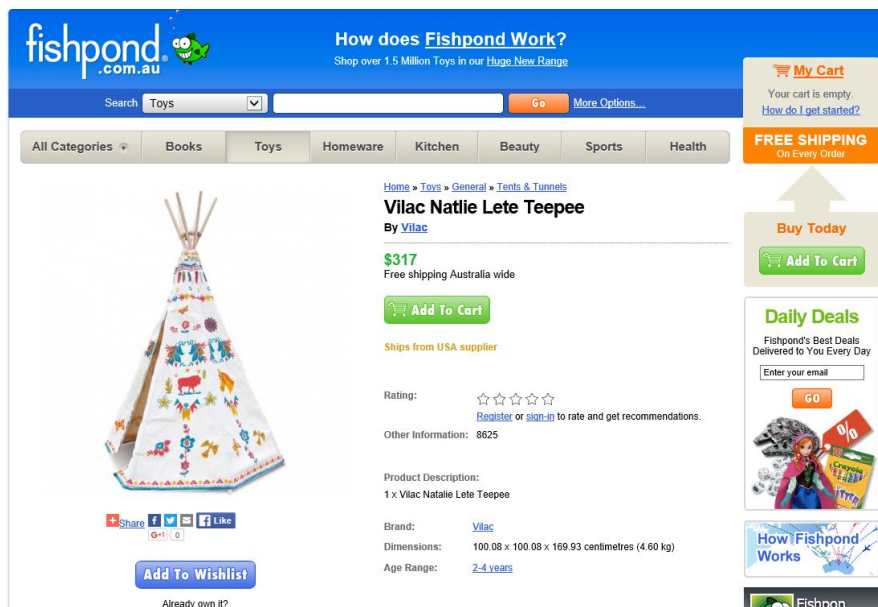

Crazy Sales

Indian Teepee by Vilac - \$229.95

Fishpond

Vilac Natlie Lete Teepee - \$317.00

**Fishpond are selling exactly the same product for over \$87 more!**

Again, if you were selling this product in your store, you could be offering the same product as Fishpond for much less.

This shows that price is not the only determining factor in how successful a business is, there are many other factors including; Customer Service, Attention to Detail, Marketing, Advertising, Product Offerings, Range of Products, Personalised Service, and much more.

## **SUMMARY OF DROP SHIPPING PROCEDURES**

Register for an account with the suppliers you want to use (also subscribe to their newsletters and reseller programs - if they have them available)

1. Select the goods & items you wish to sell from the supplier's website
2. After checking stock availability – list items for sale on your website by copying and pasting the description text and photos from the Drop Shipper's website onto your own
3. When you sell an item from your website - place the order (after receiving payment) with the supplier, making sure to use the buyers name & address details in the 'Ship To' fields
4. Orders are dispatched directly by the Drop Shipping suppliers to your customers "ship to" address
5. Profit the difference between the supplier's price and the marked-up price that you have charged your buyers!
6. Remember to monitor the Drop Shipper's websites regularly for stock availability. Remove items from your website as they sell out and replace them with new stock as it is listed on the Drop Shipper's websites.

Don't forget to advertise and promote your website using the methods outlined in our Website Package Instructions.

No responsibility is taken for changes to terms and conditions, reward programs, VIP programs, commissions, payment structures etc.

If you have any questions please contact the Drop Shipping suppliers directly for further information.

## DROP SHIPPING SUPPLIERS

So who are they? You may have heard of some of these companies before, but what you probably didn't know is that they offer a Drop Shipping Service - which will be provided to YOU totally FREE of CHARGE.
